

55th Annual Conference of Metallurgists hosted by
XXVIII International Mineral Processing Congress (IMPC2016)
September 11–15, Québec City Convention Center

ELECTROMETALLURGY 2016 2ND INTERNATIONAL SYMPOSIUM

The 2nd International Symposium on Electrometallurgy – building on the previous Symposium in Orlando, Florida (2012), will bring together industry, consulting engineers and researchers to discuss fundamental research, development, and/or application of innovative aqueous or molten salt electrometallurgical processing technologies for the extraction of metals.

Topics discussed at the symposium:

- Electrorefining: Improving productivity electrolyte control and by-product recovery
- Electrowinning: Impurity effects and deposit control
- Electrowinning: Anode technology
- Molten Salt Electrometallurgy: New and future applications
- Electrometallurgy: Innovative Applications
- Electrochemical Technologies and Fundamentals for Metals, Minerals, and Materials
- Electrochemical treatment of effluents
- Process Modelling and optimization
- Emerging Technologies

This Symposium is organized by the MetSoc of CIM
(The Canadian Institute of Mining, Metallurgy and Petroleum)
and TMS (The Minerals, Metals and Materials Society).

What to expect at IMPC 2016?

TRANSFORMATIONAL TECHNICAL PROGRAM

FOUR-DAY CONGRESS

DAILY THEMED PLENARIES

16 TECHNICAL TOPICS + 8 SHORT COURSES + INDUSTRIAL TOURS

600 ORAL PRESENTATIONS

150 POSTERS

70 EXHIBITORS

1000 PARTICIPANTS

VAST NETWORKING & BUSINESS OPPORTUNITIES

NETWORK WITH PEERS AND PARTNERS

REGISTRATION OPENS EARLY FEBRUARY 2016

ABOUT THE CONGRESS

xxviii | Québec City, Canada
IMPC 2016

The IMPC has been a major driving force for the promotion of scientific and technical knowledge in mineral processing and extractive metallurgy across the globe, becoming the most prestigious event in its field in the world today.

com2016.metsoc.org

PROCEEDINGS

The proceedings of the Symposium will be published in electronic format and will be available at the meeting. Both the Symposium and its proceedings will be in English. All papers will be refereed and edited prior to final acceptance and publication.

PROMOTE YOUR BRAND WITHIN THIS INFLUENTIAL COMMUNITY

Sponsoring and/or exhibiting at COM 2016–IMPC 2016 gives you international exposure and connects you with companies, universities and professionals in the mineral processing industry from across the globe.

For sponsoring or exhibiting inquiries:

SHORT COURSE ON ELECTROMETALLURGY

A one day short course will be offered before the Symposium on Saturday, Sept. 10 that will cover presentations on the fundamentals and practice of Electrometallurgy. The short course will be given by lecturers (visit our website for details) of international stature in their fields of expertise.

Topics could include:

- Fundamentals of electrochemistry and electrodeposition
- Electrorefining: Improving productivity and by-product recovery
- Electrowinning: Impurity effects and control
- Anode technology : lead anode and Ti coated anodes
- Molten Salt Electrometallurgy: New and future applications
- Process modelling and optimization
- Electrometallurgy: Innovative Applications
- Electrochemistry for effluent treatment

The short course attendance is limited, and a separate registration fee will be charged.

TECHNICAL TOUR

A one-day tour to Canadian Copper Refinery and Canadian Electrolytic Zinc is planned for COM 2016-IMPC2016. Please visit our website for updates.
